☐☐☐☐ A Boston Computer Society Publication

Now CW Communications/Inc. puts a powerful new research tool right at your fingertips.

If you need instant access to news and information about your competition, your profession, technology, finance, law, or just about any other subject, SearchLink will give it to you.

CW Communications new SearchLink service gives you easy access to more than 800 databases in just minutes!

And SearchLink gets you answers to all sorts of questions from these databases—like details about new products and services, or market facts, or emerging technologies. You can get information on computers, medicine, investments, law, chemistry, engineering and much more. Everything from accounting to trademarks to history or geography.

SearchLink is easy to use and inexpensive.

All you need is a credit card and a computer with modem.

No subscriptions. No passwords. No difficult manuals to learn. Just call 800-843-7337 with your computer and log on. You pay only \$7.99 per search (a few databases carry surcharges) plus 25 cents per minute for telecommunications and \$2 for each abstract you want to see. (You can also get hard copies). You can charge everything to MasterCard, VISA, or American Express.

SearchLink provides 24-hour on-line assistance.

SearchLink even gives you free on-line tips from trained SearchLink search specialists if you have problems or questions about your searching. Just type "SOS" when you're on-line!

SearchLink gets you to the information you want.

If you've ever wanted to access databases offered by ADP Network Services; BRS; Data-Star; Datasolve; DataTimes; Dialog; G-Cam Serveur; NewsNet; Pergamon InfoLine; SDC; Questel; or

VU/TEXT, SearchLink will access databases from all of them—without a special subscription or knowledge of special search languages.

We can't list all of SearchLink's more than 800 databases, but just to give you an idea, here are *some* of the databases available under the topic "COMPUTER."*

Business Software Database	Menu—The International Software Database
COMPENDEX® Computer Database	Microcomputer Index
COMPUTERPAT	Online Microcomputer Software
INSPEC	SUPERTECH

And here are just a few of the other popular databases you can access with SearchLink.

ABI/INFORM	ERIC
Chemical Abstracts	PTS PROMT
Disclosure	TRINET
(Selected databases)	Trademarkscan
Donnelley Demographics	Standard and Poor's
Dun & Bradstreet	Corporate Descriptions
(Selected databases)	

Call 800-843-7337 now!

Put the power of knowledge to work for you right now. Call 800-843-7337 (THE-SEER) on your computer and get the answers you need to stay ahead.

*A complete list of the databases is available on SearchLink.

SEARCHLINK

Your link to the world of information.

An International Data Group Service

SearchLink is sponsored by the National Federation of Abstracting and Information Services.

NFAIS is a professional association of database producers.

CW COMMUNICATIONS/INC.

These prices are ridiculous.

Compared to the other guys, Ability™ is priced so low it's ridiculous. Because now with Ability you can get the same results without learning any exotic commands or reading volumes of arid documentation. All for an unbelievable \$99.

Complete set of power tools.

Ability combines six high-powered PC productivity tools into a single, simple package.

You get full-featured wordprocessing with what-you-see-is-what-you-get formatting. Spreadsheets three times larger than Symphony, with all the powerful math and business functions you need, and the ability to import Lotus 1-2-3 files. It'll even print sideways for those oversized spreadsheets.

A forms-oriented database that's easier to use than pfs: file. Professional business graphics from your spreadsheets and databases with just a few keystrokes. Menu-driven Migent Pocket Modem™ and Hayes-compatible communications. Even "slide" shows on your PC!

Easy does it.

Ability is based on the idea that the computer should do the work. Not you. It's got smooth seamless integration like nothing you've ever seen before. Because with Ability,

everything is linked together—live. Text, spreadsheets, graphics and database.

So any changes you make are automatically made in the linked spreadsheet or database. Or change the spreadsheet and your text is updated at the same time. And your graph is automatically redrawn to reflect the changes, either way. It's perfect for those weekly and monthly reports.

And anybody can do it with no programming at all, because Ability is menu-driven and uses the same instructions in all six applications.

Awesome performance at a sensible price.

Compare the features and performance and you'll find that Ability truly gives you your money's worth. And at just \$99, its price isn't so ridiculous after all.

Call Migent today for your free demo disk or for the location of a dealer near you.

FOUR STARS

Paradox® is the only relational database ever to earn this honor from Software Digest.

In all, 15 relational databases were tested. And when the results were tabulated, Paradox was the only one to win high ratings in every category. From ease of learning through ease of use, error handling, performance and versatility.

So not only was it Software Digest's number one relational database, it's now the only one ever to earn their coveted four-star rating. And if you think that's

good, see our new version, Paradox 1.1. For the name of the Ansa dealer nearest you, call 800-547-3000, Dept. 146; in Oregon, 503-684-3001.

On the cover

Now ten years old, the BCS says Happy Birthday to itself. Brenda Bredvik of Doliber Skeffington Design has translated our lighthearted wishes into a cheerful and colorful birthday cake, complete with fun decorations. In addition to the cover, the corresponding section dividers in this special issue are also her design.

- 41 SECTION I: BIRTHDAY WISHES**
- 33 SECTION II: DEDICATION**
- 34 323 people who made the BCS**
By Jonathan Rotenberg.
- 45 SECTION III: THE LAST TEN YEARS**
- 46 A recollection: Personal computers in the Boston Computer Society's first ten years**
We cruise down memory lane to check out what was hot and what was not during the past decade. By Tracy Robnett Licklider.
- 55 Fun and off-forgotten facts**
See if you know these firsts! By Jack B. Rochester.
- 56 The first time. . . and other reminiscences**
A collection of magnificent moments and memories of *le genre humain* with the personal computer. Compiled by Jack B. Rochester.
- 62 The Book of Software, Part I**
By Stewart Alsop II.
- 64 Software's greatest hits**
Sing a song of solid gold: Presenting the most popular disks of yesteryear, some of which still top the charts, some of which have toppled. By John J. Xenakis.
- 82 Reeling in the years**
Flashbacks from the life and times of the BCS and its many members. By Mary McCann.
- 93 SECTION IV: THE BCS TODAY**
- 94 BCS user and special interest groups**
A look at our groups and what they do.
- 102 CIA File: BCS-87**
An irreverent, outrageous, and amusing profile of the BCS staff. By Michael Murie.
- 105 BCS services and special projects**
A look at what sorts of things are happening at the BCS.
- 111 SECTION V: SPECIAL REPORT ON COMPUTER DISCOVERY CENTER**
- 125 SECTION VI: THE FUTURE**
- 126 The Boston Computer Society: 1987-1997**
By Jonathan Rotenberg.
- 132 BCS Calendar: March 1997**
A sampling of the sorts of meetings BCS members will hold ten years from now.
By Michael Murie.
- 70 The Learning Curve**
Utopia now
- 74 Straight Talk**
Ten down, and ten to go
- 78 Human Side**
Where does the BCS fit in the hands-on generation?
- 80 Software Savvy**
Why things weren't what they seemed

“My, time flies when

Ten years ago, the finishing touches were being made on what would be America's first mass-marketed personal computer, the Radio Shack TRS-80®.

At about the same time, a gathering formed in Boston, attracting some pretty interesting people.

People whose only common denominator was a love of personal computing.

The Boston Computer Society went on to become this country's most respected group of people whose only common denominator is *still* a love of personal computing.

you're having fun!"

And our Tandy® computers? They've been so popular, we can barely make them fast enough.

In retrospect, the last ten years have been good ones for the Boston Computer Society. And they've been good ones for Radio Shack, too. We've both experienced tremendous

growth. And while it hasn't always been easy, it has been fun.

To our friends at the Boston Computer Society, we wish many years of continued success.

"Happy Birthday" from all of your friends at Radio Shack and Tandy Corporation.
